Subject: Your products/services are needed to advance the industry - Exhibit at Grid Edge 2023

Hello,

Your Products & Services Are Wanted! Share Them with Over a Thousand Professionals in 1 Place!

We are on the edge of creating a more energy efficient world—making zero-carbon goals into reality and building smart cities that once seemed like distant dreams. But these exciting advancements can't be fully realized without optimizing the grid edge and **YOU!**

Showcase how your company can help at the first-of-its-kind event, IEEE PES Grid Edge Technologies Conference & Exposition. The event is set to unite utilities, big tech, municipalities, design consultants, policy makers, startups, and other stakeholders working to create the decentralized, distributed smart grid necessary for tomorrow's sustainable environments. Check here to see a partial list of [featured speakers](#) - Don't miss out!

Booths start at \$32 per square foot and include **4 Full** Conference Registrations. Read [what all is included here](#).

I truly believe this conference can be the CES of the power and energy industry. The sheer level of expertise that will be present at the conference is unmatched. For those who want to interact with those at the forefront of grid edge development, this is the place to be.

*- Kevin Geraghty, Chief Operating Officer and Chief Safety Officer
San Diego Gas & Electric®*

I would love to discuss this more with you. Please [email](#) or call me (972) 521-9902 today so we can customize a spot just for you!

Or view the [current Floorplan](#) and [Reserve Your Booth](#) yourself.

Thank you,
Shiela Torres
