ISAC

INTERNATIONAL SOCIETY FOR
ADVANCEMENT OF CYTOMETRY

Dear Exhibitor Colleagues,

It is our pleasure to announce the exhibit and sponsorship opportunities for CYTO 2024, the Congress for the International Society for the Advancement of Cytometry. ISAC's 37th International Congress will be held from May 4-8, 2024, in Edinburgh, Scotland.

Attendees will participate in an exciting program: "Research, Innovation and Discovery". This program will showcase the state-of-the-art in cytometry technology, cytometry science, and new advances in the biological applications of imaging, cytometry, and single cell analyses. Attendees will hear world class presentations from the leaders in molecular & cell biology, biophysics, and photonics. Edinburgh, the Capital of Scotland, is a city known for its rich history, literacy and cultural heritage, and stunning architecture. Home to some of the largest and most influential life science organizations; four universities, three teaching hospitals and eleven institutes all dedicated to ground-breaking research. Scotland has a thriving life science community that is known to be one of the best connected and most collaborative in Europe. CYTO 2024 will embody Edinburgh's dedication to ground-breaking research to shape ideas and innovations for the future. We invite you to be a part of this exciting meeting that is sure to provide you with valuable business opportunities.

Interest in single cell analysis using cytometry continues to grow in the areas of basic, translation and clinical science. The power of this technology to identify new approaches to diagnose, treat and prevent disease, as well as to expand our knowledge in areas of food, environmental and non-human biology, is today revolutionary. More than many other fields, the synergy between scientists and biotechnology is vital for impacting public health and basic research world-wide.

We look forward to having your company be a part of this community! Your participation will be brought to the attention of many thought leaders, decision makers, current and new customers who will attend CYTO 2024 in Edinburgh.

In our effort to continuously improve your CYTO experience, ISAC has gathered suggestions through surveys, focus groups, and by speaking to you individually. We value this input tremendously and are continuing to strive to provide the exhibitor and sponsorship experience that will support your needs. Foremost, is increasing opportunities for both attendance in the exhibit hall and enhancing the flow on the floor to give you maximum exposure to current and potential customers.

We want to once again express our gratitude to the companies who exhibited at and sponsored events at CYTO 2023 or other past congresses. We look forward to seeing you again at CYTO 2024 and welcome your support. Please do not hesitate to contact CYTO 2024 Exhibit Management (**Tel. 845-243-2906, kris@herlitz.com**) if you have any questions.

Our outstanding program of cutting-edge scientific sessions, workshops and tutorials will attract the very best in the field. Edinburgh is where your company will want to be in May 2024!

Exhibit Space Fees

Booth Size 3m x 3m	\$3,750.00
Shell Scheme Booth	\$4,500.00
Island Booths	\$4,250.00

All prices are in US Dollars and are based on 3m x 3m spaces. Due to the limited space, all configurations need to be approved and assigned by Exhibit Management.

*All non-shell scheme booths are subject to the 20% UK VAT tax **(for non-UK companies)** which will be added to your booth fee upon assignment.*

Space Assignments

The early deadline for booth assignment based on priority points is January 5, 2024. Applications received online will be assigned booths based on accumulated priority points; priority points are the participation and loyalty reward system for CYTO Exhibitors and Sponsors.

Accumulated points determine space selection order for the Congress. Companies receive one point per booth purchased, for a maximum of five points. In the case of company mergers, exhibit management will use the highest number of years exhibited in calculating priority points. Priority points may also be earned through sponsorship support or for hosting a commercial tutorial.

Exhibitors will be notified of booth assignment by January 19, 2024 Starting January 22, 2024, the online booth application will be open to exhibitors on a first come first serve basis, based on space availability.
