

Gaylord Texan: Resort Wireless for Hotel Guests in Meeting Space

1. Upon entering the meeting space, connect to the wireless network on your device. From the available networks, choose 'Gaylord_Resort'. You will be prompt to Connect.
2. Please enter your room number and last name.
Choose Submit.

Some things to keep in mind regarding the Resort network:

- Should the user experience any issues they can contact the third-party support team via the 1-866-229-7155.
- This network unlike dedicated networks cannot be customized or monitored.
- The Gaylord Texan, under no circumstances, supports this network being used with the intention for conference apps, virtual meetings (Teams Meeting, Webex, Zoom, etc.), VPN connections or anything that is openly critical to the success of their event.
- This network allows for the individual users to check email and simple surfing of the web.

For assistance with connecting to the Gaylord_Resort network guests may call 1-866-229-7155 to contact our Resort Network support.
