

New Sampling Guidelines

Please protect yourself and your potential customers by following these basic food sampling guidelines:

- ✓ Wear a face mask, that covers your mouth and nose, at all times within your booth.
- ✓ Wash your hands often.
- ✓ Wear gloves and use tongs when handling samples.
- ✓ Have hand sanitizer available in your booth for attendees and your staff.
- ✓ Complete the [Temporary Food Permit application](#) for the Secaucus Board of Health. An enforcement officer from the Board of Health will be onsite to confirm all exhibitors are in compliance.
- ✓ Please provide attendees with individually portioned samples in small sampling containers. (Example pictured here.)
 - *Please do not place food out on a serving tray for attendees to help themselves to shared samples of food.*
