Below you will find safety and security recommendations, as well as the Emergency Response Plan for the event. Take a moment to review and familiarize yourself with this information in advance of the event and share it with any of your staff who will be on-site.

## PERSONAL SAFETY

- **The Event Organizer** works diligently to ensure the safety and security of exhibitors, attendees, and the event. If you have any security concerns leading up to the event or on-site, contact the Event Organizers.
- **All persons in the exhibit area must wear a badge or show one upon request during move-in, event hours and move-out.** Your badge can be digital on your mobile phone or printed. Exhibitors are responsible for ordering badges for their workers and staff.
- All stand builders, exhibitors, contractors, and related personnel who need access to Fira Barcelona during Installation (**18 April – 22 April**) and/or Dismantle (**25 April – 28 April**) are **REQUIRED** to have a government ID with them at all times.
- **Notify the Event Organizer**, or security immediately if you notice any safety hazards or witness anyone being injured anywhere in the building or nearby outside spaces.
- **Be aware and be prepared.** Remove your badge when leaving Fira for the day and have all emergency numbers saved into your phone. Be aware of your surroundings and take caution, especially in the evenings.
- **Lost & Found** articles may be turned in or claimed at the Organizer's Office located in the East Access lobby during event days. After the event contact Fira Security Department at +34 93 233 2000.

## SAFEGUARDING STAND PROPERTY

- **Coordinate shipping and deliveries.** Be onsite when your product is being delivered to your stand and conduct an inventory immediately to note any missing or damaged items.
- Greet anyone that comes into your stand as this will send a signal that you are aware of their presence and discourage any perpetrators from attempting to steal.
- **Store any valuables in a locked cabinet** and cover your displays with a tarp or other covering so your stand items are less visible. Do not leave purses, briefcases, or valuables underneath tables, as this is the first place any thief will look. Bring any valuable seafood products back to the cold storage areas for safekeeping overnight.
- Move-in and move-out hours are particularly sensitive times when thefts are most likely to occur. **DO NOT LEAVE YOUR STAND UNATTENDED.** At the end of each day, take any valuables with you. If you need to leave, we strongly recommend packing up all items and hiring private security for your stand. Should you choose, security guards can be hired on-site through Servifira at the Exhibitor Service Desks in South Access (Level -1) or East Access.
- **Obtain proper insurance coverage** for your goods, including transit to and from the event site.
- Do not leave any prototype product unsecured in your stand.
- **Be Careful!** The Event Organizer has a 24-hour security service for general surveillance of the event and facility as a whole. It does not include individual stand monitoring and it is up to exhibitors to exercise prudent judgment and to safeguard their personal property and belongings.

- Security guards will "sweep" the halls at the close of the event each day to clear them of all visitors and personnel. **All exhibitor personnel must depart the facility within two hours of the exhibition close on Tuesday & Wednesday.**
- Any thefts or damage to property must be reported immediately to security via your hall manager. To get a police report visit the Police Station located in South Access during event hours.

## PREVENTATIVE MEASURES

- Operators working at height must utilize sufficient safety material to prevent the risk of falling (safety harnesses, ladders, scaffolding, etc.).
- A special work permit is required to carry out welding. Welding equipment shall not be used without Fira's Hall Manager authorization.
- The maximum speed limit in the Fira de Barcelona venue is 10 kph.
- All footwear must be fully enclosed (no open-toe). Safety footwear is strongly recommended.
- The use of a safety helmet will be required in work that requires it (risk of falling objects, double decker stands, blows from suspended objects, etc.).
- Use of reflective or high visibility vests is strongly recommended for all staff during installation and dismantle days.

## EMERGENCY RESPONSE PLAN

The purpose of the Emergency Response Plan is to provide guidelines to prepare for potential crisis or emergency situations. We want to ensure all exhibitors are provided with important information and proper communication during an emergency.

### Public Safety

Exhibitors should report any suspicious activity as soon as possible to **Security at +34 93 233 4100** or your **Hall Manager** immediately, and describe specifically what you observed, including: who or what you saw, when you saw it, where it occurred and why it's suspicious.

### Fira Barcelona Gran Via Venue Emergency Protocol

#### IN CASE OF AN EMERGENCY IN THE CITY:
